

What services does your community need?

You are invited to share your ideas!

10 a.m. to noon

Thursday, May 1, 2014

Old Post Office

90 N. Maine St., Fallon

The Fund for a Healthy Nevada supports:

- Programs that help improve the health and well-being of Nevadans, and
- Services for persons with disabilities and their caregivers.

Every other year, the Grants Management Advisory Committee to the Department of Health and Human Services collects input from Nevada communities about their most important needs. The input is used to help decide how to use the available funds.

If you can't attend the community forum in Fallon, you may fill out a survey that will be available at service agencies in your area, or complete an online survey available on our website at <http://dhhs.nv.gov/>. Or just send your ideas to the DHHS Grants Management Unit, 4126 Technology Way, Suite 100, Carson City, NV 89706, by April 30, 2014.
